

# Remote Learning Partner Interest Survey

Please select your district: \*

Please select the options you are potentially interested in: \*

**Option 4:** Purchase courses through Commonwealth Virtual Schools (CMVS)

*\*Includes instructional services provided by MA-license educators.*

Commonwealth Virtual Schools (CMVS) can provide individual courses or a full bundle of courses to schools or districts through an agreement that allows the student to remain enrolled in their home district. These courses must meet the district's or school's standards and requirements. The CMVS provides the teacher, the learning management system/curriculum platform, the courses, synchronous or asynchronous content, assignments, and assessments. Districts would assign educators and/or other staff members to monitor student progress and provide additional supports.

**Option 5:** Purchase student licenses for a Learning Management System (LMS) with full course content included.

*\*Does NOT include instructional services provided by educators.*

DESE has reviewed vendors that provide a stand-alone, self-paced LMS populated with full K-12 content that can be used by students to cover the basic curriculum standards on a largely asynchronous basis. This requires the district to assign teachers to teach on a remote/virtual and largely asynchronous basis. Please note that while these platforms do not depend on frequent synchronous live teaching, they do require educators trained to teach, support, and coach students using this kind of virtual learning modality. DESE is planning to sponsor state-level professional development sessions in August depending on district interest as indicated through this survey.

I am not interested in Option 4 or Option 5.

*Partners for each option that you select will be on next page.*
